DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I (claims 1-15) in the reply filed on 1/27/05 is acknowledged.

Claims 16 thru 25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on 1/27/05.

Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Allowable Subject Matter

4. Claims 1 thru 15 are allowed.

Art Unit: 2815

5. The following is an examiner's statement of reasons for allowance: The references of record, either singularly or in combination, do not teach or suggest at least a semiconductor device comprising: a base region of a second conductivity type; a drain region of the first conductivity type formed in a position apart from the base region; a well region of the first conductivity type in a region including the drain region and in contact with the base region; a trench formed to penetrate the base region in a direction toward the drain region from the source region.
